

Assignment-1 (Core Java)

Q.1 Write a Program to display Following operations.

Double A = 151.23;

Double B = 2515.51;

Float C = A+B;

Float D = A-B;

Float E = A*B;

Float F = A/B;

Q.2 Write a Program to display Following operations.

int x = 15;

float y = 25.51f;

Double z = A+B;

Double p = A-B;

Float q = A*B;

int r = A/B;

Q.3 Covert the Following value int to float

H = 456;

I = 654;

J = 789;

Q.4 Convert following values double to short.

K = 123.32;

J = 45.321;

L = 55.55;

Q.5 Convert following values double to short.

M = 12.21;

N = 54.55;

P = 123.21;
